Six months, : : : 1 50  
Three months : : : 1 00  
Advertising rates on application.

Mr. and Mrs. Richard Coleburn, of Velva, South Dakota, are visiting with their daughter, Mrs. F. C. Farr of this place.

Mrs. Cornell, of Los Angeles, is visiting with her daughter, Mrs. Lola Snowden, and expects to remain all winter. They have rooms with Mrs. L. V. Snyder.

Frank R. Sperl, who owns a large number of mining claims in the Copper World section, was in Kingman several days this week. He claims to have opened up some nice looking gold and copper ore in one of the big veins.

The fare to Phenix for the round trip, during fair week, is only 9.30. This is the lowest rate ever given and ought to take many Mohave county people there for the week. The attractions will be greater than any other year and will be worth going far to see.

Henry Lovin has gone to Kelvin, where he will look after his big mercantile business. He is of the belief that the shutdown of the Kelvin camps will be but temporary and that as soon as the markets recover, which they no doubt will and that soon, the mines will again be operated and on a larger scale than before.

The bridge builders are at work on the Parker bridge. One of the abutments on the Arizona side has already been put in place and as soon as the compressor plant is ready for work the abutments in the river will be commenced on. The caisson work will take many months to complete, as aprons will have to run out from the bottoms of all the abutments, giving them a large surface. No bottom has been found in the river at the point where the bridge is to be built, but there is a cement strata covering a secondary sand and it is proposed to cover this strata as fully as possible, so that there will be no sinking of the massive concrete abutments when they have been put in place. The aprons will cover practically the entire bottom of the river from one shore to the other. The bridge is to be one of the cantilever type, but much shorter than that at Topock, on the main line of the Santa Fe.

Last Thursday morning Jeff Woods, an insane patient from this county, made a murderous assault on Dr. Ray Ferguson, superintendent of the insane asylum at Phenix, striking him on the head with an axe, inflicting a wound over the temple. As the doctor was swung around by the blow the insane man struck him again in the back of the head. The doctor fell to the ground and was again struck in the back with the axe. A guard fired both barrels of a shotgun at the maniac, the shot striking him in the back and diverting his attention from Ferguson, otherwise it is thought he would have been killed. Before the man recovered from the effects of the shot he was overpowered by attendants and locked up in a padded cell. It took thirty-five stitches to close the wound in Dr. Ferguson's head. Woods was sent from this county about eight months ago, having been brought in from Goldroad. He was a miner and was aged about thirty-eight years.

Yavapai county supervisors have arrived at Nelson with their county surveyor for the purpose of checking up the initial point from which the survey of the dividing line is to run. Surveyor Friel has taken as his initial or checking point the geological survey at Mount Flood and Pecacho Peak, where the longitude 113 west from Greenwich is established. The surveyors will also take observations at Nelson for the purpose of getting at the meridian 113. degrees 20 minutes, which is the meridian established by law dividing the two counties on the west part of the territory from those on the east. On this line will be established the partition of Yuma and Maricopa and Yavapai counties and Mohave and Yavapai and Coconino counties. That it is permanently established is of vital interest to the people in all these counties is apparent, as it depends the tax on a large amount of property situated along the line of all the counties.

Mrs. M. E. Cohenour returned this morning from a trip to New Mexico.

Judge W. G. Blakely spent several days this week in Prescott on legal business.

S. R. Davis last week received from old Kentucky one of the largest jacks ever brought to the territory.

George W. Miller, one of the largest cattle owners in the county is in Kingman from his ranch near the Willows.

A. I. Conkey came in from Los Angeles Thursday morning, and departed to his home in Chloride the same day. He is much improved in health.

R. W. Hunt is in Utah looking up a business opportunity. "Bob" will look far afield before he will find any better business place than right here in Mohave county.

T. L. Ayers and wife came in from San Francisco Thursday night and are visiting with friends. Mr. Ayers still owns mining property in this district and comes here to look after it.

William Kennedy, who recently sold his zinc mine, at Good Springs, Nevada, was a Kingman visitor this week. Mr. Kennedy is well known to all the old timers in this section.

Judge J. R. Russell has gone to the McCracken mines to look over the business outlook of that camp. It is understood that he will open up a business house there in a short time.

Major W. A. Mensch was in Kingman Thursday last from the Enterprise mines, where he is superintending important developments on the properties. A carload of lumber was received for the mines this week and is being hauled out.

James Uncapher, owner of the famous old Keystone mine, at Mineral Park, is in Kingman awaiting P. R. Smith and party, who are to make an examination of the mine group with the view of purchase. It is expected that Mr. Smith will be here tomorrow morning.

Bright and Crandall's outfit has been here the past ten days grading out and extending the yard limits of the Santa Fe railroad at this place. The work will keep a large outfit here more than a month more. When completed Kingman will have double the present yard capacity, a necessity owing to the gradually increasing business of this section.

One of the greatest disappointments experienced by the children of this county was the failure of the Norris & Rowe circus to give an entertainment here last Wednesday. But the fault was not theirs. The train bearing the show was stalled in Wallapai valley many hours and when it arrived at Kingman it was after sundown. The engine of the train was unable to switch it out and when it was at last placed on the sidetrack where it could be reached it was long after dark and the management concluded that it would be out of the question to give a performance. Hundreds of people were here from the outside and the little ones were not any more disappointed than the older ones.

Dr. J. R. Whiteside, who was in Kingman from Chloride Wednesday last, has a proposition to make to the board of supervisors and the people who have the interest of the county in general at heart. The proposition is to build and maintain ferries at the mouth of the Virgin river and at Eldorado Canyon. At present it is impossible to cross the Colorado river at either place, teams and men having to go around to Needles or Seaton Ferry to cross to the Arizona side, or vice versa. The maintenance of these ferries would amount to little, the ferryage paying practically all the expense. It would be a good plan to try the experiment and thus aid in the opening up of the north part of the county.

The following letters remain uncalled for at the Kingman postoffice: Emilia Cavanillas, Jesus Juarez, Mrs. Malnaillo, Tomas Ruiz, Pedro Salaz, Felix Salazar, Ottorino Carnaggia, Jessie Wallace, James E. Young, Walter Cayne, Mrs. Robert Platt, Ben Recker.

## Be Charitable

to your horses as well as yourself. You need not suffer from pains of any sort—your horses need not suffer. Try a bottle of Ballard's Snow Liniment. It cures all pains. J. M. Roberts, Bakerville, Mo., writes: "I have used your Liniment for ten years and find it to be the best I have ever used for man or beast." Sold by Watkins Drug Store.

## Old Scale of Wages to be Restored.

Butte, Mont., Oct. 30.—The miners' union and the smeltermen's union have received notices from the Amalgamated Copper and other mining companies that the old scale of wages, in force before the agreement of the sliding scale was made, will be restored Nov. 1, in compliance with the contracts entered into by the companies and the labor unions of Butte, and the notices have been posted in the halls of the organizations.

A meeting of the miners' union was held last night and the matter referred to a committee. The union issued a statement some time ago to the effect that it will abide by the contract made with the mines. The reduction will be from 4\$ a day to 3.50\$, the scale before the raise. The mines might have reduced the wages to the old scale a month ago, copper already then being below 18 cents, but the companies preferred to leave the wages untouched until it would be evident that copper would stand below 18 cents for awhile.

The reduction to the lower scale will apply to all men at the mines except machinists, who have been on a strike for months, and whose organization never signed a contract for a sliding scale. About 7,000 men are involved.

All citizens are cordially invited to attend the flag raising at the public school building next Friday afternoon at 2:30. Come and hear the children sing.

## Grand Masque Ball.

Calanthe Temple No. 13 Pythian Sisters will give a grand masque ball at Elk Hall on Thanksgiving night, November 28. Tickets \$1.50 a couple ball and supper. No one allowed on floor but those encostumed. Children under 14 years not permitted to dance. Ladies admitted free to ball.

## Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction. 25c, 50c, 1\$. Sold by Watkins Drugstore."

## An Ordinance.

Granting to the Desert Power & Water Company, a corporation, the rights heretofore granted by the Board of Supervisors of the County of Mohave, Territory of Arizona, to George M. Chartier, et al. and their assigns, on the 15th day of May, 1906, which franchise has been assigned and is now owned by the Desert Power & Water Company.

The Board of Supervisors of the County of Mohave, Territory of Arizona, do ordain as follows:

Section 1. That the rights and privileges and franchise heretofore granted by this Board to George M. Chartier, F. E. Monteverde, Jr., Auguste Marquis, Carl F. Schader and T. A. Johnson, and their assigns, by an ordinance passed on the 15th day of May, 1906, be and the same are hereby established and confirmed in the Desert Power & Water Company, a corporation, organized and existing under and by virtue of the laws of the Territory of Arizona, to which said rights, privileges and franchise have been duly assigned.

Section 2. This grant shall be subject to all restrictions, limitations and obligations of said original franchise, except that the location of the main plant of said Desert Power & Water Company may be located within the Territory of Arizona, and in the County of Mohave.

Section 3. The said Desert Power & Water Company or their assigns are hereby required to file written acceptance of the terms and conditions of this ordinance with the Clerk of the Board of Supervisors within thirty days after the passage of this ordinance.

Section 4. This ordinance shall take effect and be in force from and after the 7th day of October, 1907, and effect and validate all proceedings of the said assignors of the said Desert Power & Water Company from and after first day of May, 1906. It shall be published for one week in the MOHAVE COUNTY MINER, a newspaper printed and published in said County of Mohave, Territory of Arizona, together with the names of the members of said Board of Supervisors voting for the same and against the same.

JOHN S. KOLAR,  
Chairman Supervisors.  
W. B. STEPHENS,  
GEO. A. BONELLI.

TERRITORY OF ARIZONA, SS.  
County of Mohave.

I, Thos. McNeely, Recorder of Mohave County, Territory of Arizona, and Ex-officio Clerk of the Board of Supervisors, do hereby certify that at a regular meeting of the Board of Supervisors of Mohave County, Territory of Arizona, held on the 7th day of October, 1906, at which meeting there was present John S. Kolar, Wm. B. Stephens and Geo. A. Bonelli, the foregoing ordinance containing four sections was considered section by section, and each section separately, and that the said ordinance was passed by the following vote: Ayes—

JOHN S. KOLAR,  
WM. B. STEPHENS,  
GEO. A. BONELLI.

In Witness whereof I have hereunto set my hand and affixed the seal of the Board of Supervisors of Mohave county, Territory of Arizona, on the 7th day of October, 1907.  
(SEAL) THOS. MCNEELY.

# Lard LARD Lard

From Chas. Gracey, manager of the Wharton mines at Eldorado, the meaning of the word "Tchatticup" is learned. He states that it is Piute Indian for white flour, and that to the best of his belief was coined by the Indians around the Canyon at the time when the whites first came into the country bringing with them white flour, a kind the Indians had never seen, being accustomed to the yellow product made from corn. Mr. Gracey is likewise authority for the spelling of the word with two "t's."—Searchlight Bulletin.
